TANDEM SCREEN SYSTEM

Supplier:

EMA[®]
INTERNATIONAL
PTY LTD

www.emainternational.com.au

The Daintree Tandem Screen System has been designed and developed with different seasons in mind.

- Giving you Year Round Climate Control to outdoor entertaining areas.
- Keeping you Cool in Summer and Warm in Winter.
- Optional remote controlled motor operation.
- Minimise insects and bugs.

The Daintree is a unique Tandem System, being a combination of both PVC Clear Screens and Shade Mesh Screens. Enclosed inside a fully extruded and powder coated aluminium headbox with double side channels. Both screens can easily be operated from inside. With EMA's new locking system, these screens are designed for simplicity of use.
